A couple of weeks ago, however, a young gentleman of Louisville, whose nerves never trembled at mortal peril, being at the Mammoth Cave with Prof. Wright of our city, and others, determined, no matter what the dangers and difficulties might be, to explore the depths of the malestrom. Mr. Proctor, the enterprising proprietor of the cave, sent to Nashville and procured a long rope, of great strength, expressly for the purpose. The rope and some necessary timbers were borne by the guides and others to the proposed point of exploration. The arragements being soon completed, the rope, with heavy fragment of rock affixed to it, was let down and swung to and fro to dislodge any loose rocks that would

be likely to fall at the touch. Several were thus dislodged, and the long-continued reverberations, rising up like distant thunder from below, proclaimed the depth of the horrid chasm. Then the young hero of the occasion, with several hats thrown over his head to protect it as far as possible against any masses falling from above, and with a light in his hand and the rope fastened around his body, took his place over the awful pit, and directed the half dozen men, who held the end of the rope, to let him down into the Cim-

We have heard from his own lips an account of his descent. Occasionally masses of earth and rock went whizzing past, but none struck him. Thirty or forty feet from the top he saw a ledge, from which, as he judged by appearances, two or three avenues led off in different directions. About a hundred feet from the top a cataract from the side of the pit went rushing down the abyss, and, as he descended by the side of the falling water and in the midst of the spray, he felt some apprehension that his light would be extinguished, but his eare prevented this. He was landed at the bottom of the pit, a hundred and ninety feet from the top.

diameter, with a small opening at one point, leading to a fine chamber of no great extent. He found on the floor beautiful specimens of black silex of immense size, vastly larger than were ever discovered in any other part of the Mammoth Cave, and also a multitude of exquisite formations as pure and white as virgin snow. Making himself heard, with great effort, by his friends, he at length asked them to pull him partly up, intending to return mail. stop on the way and explore a cave that he had observed opening about forty feet above the bottom of the pit. Reaching the mouth of that cave, he swung himself with much exertion into it, and holding the end of the

rope in his hand, he incautiously let it go, and it swung out apparently beyond his reach. The situation was a fearful one, and his friends above could do nothing for him. Soon, however, he made a hook of the end of his Esq., Mr. JAMES SMITH, to Miss M. BLACKBURN lamp, and, by extending himself as far over the verge as rope. Fastening it to a rock, he followed the avenue Returning to the mouth of this avenue, he beheld an

almost exactly similar mouth of another on the opposite side of the pit, but not being able to swing himself into it, he refastened the rope around his body, suspended severe one, and the rope, being ill adjusted around his body, gave him the most excruciating pain. But soon his pain was forgotten in a new and dreadful peril. When he was 90 feet from the mouth of the pit and

Several moments of awful suspense to those above and still more awful to him be- Lord taketh away ;- blessed be the name of the Lord." low ensued. To them and him a fatal and instant catastrophe seemed inevitable.

But the fire was extinguished with a bottle of water bolonging to himself, and then the party above, though almost exhausted by their labors, succeeded in drawing him to the top. He was as calm and self possessed as upon his entrance into the pit, but all of his companions to whom the largest Commissions will be paid. Our overcome by fatigue, sank down upon the ground, and his friend Professor Wright, from over exertion and excitement, fainted and remained for a time insensible. The young adventurer left his name carved in the depths of the Maelstrom-the name of the first and only person that ever gazed upon its mysteries.

TO THE LADIES OF LYNCHBURG. Come and see you lame and suffering! Oh, you Rheumatic and Dying, you shall be relieved in twenty minutes by the application of Professor De Grath's Electric Oil, from 39 South Eighth st., Philadelphia, Pa. More than thirty have been cured in this place, in the last few days, of Rheumatism, Sprains and Bruises, Sores, Fresh Cuts, Swollen Glands and Neuralgia -- relieved in from three to twenty minutes. Better still: Mr. Welch, of Buchanan, had been laying in his bed over a month with Swollen Glands in his broat, and the doctors gave him up of being cured. Last Saturday, a week ago, he was taken very suddenly and could not breathe, and all expected him to die. Mr. Williams, a merchant of Buchanan, advised his wife to apply some of Professor De Grath's Electric Cal. She did so, and in fifteen minutes it broke and he was entirely relieved. One gentleman came up to the agent of Professor De Grath at the Market House, with the Rheumatism in his ankle, of six months'

A FINE HEAD OF

RICH GLOSSY HAIR.

TALK OF BEAUTY, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt: PROFESSOR WOOD'S HAIR RESTORATIVE .- We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color gray hair covers the head of the bald with a luxuriant growth—renoves the dandruff, itching, and all cutaneous eruptionscauses a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:

DEEP RIVER, Conn., July 23, 1856.

Mr. Leavenworth—Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf and new hair began to grow; it is now two or three inches in length where it was all off. have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place, you may have a market for many bottles after it is known here. Yours with respect, RUFUS PRATT.

PHILADELPHIA, Sept. 9, 1856. Prof. Wood-Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering-in fact BALD. I have used but two half-pint bottles of your Restorative, and now the tip of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it.

Yours respectfully, D. R. THOMAS, M. D., No. 464 Vine street.

VINCENNES, IA., June 22, 1853. Prof. O. J. Wood: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it-that I have, for several years, been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours, WILSON KING.

REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING SEPTEMBER 23D, 1858.

TURPENTINE .- In this article we have no change to report since our review of Thorsday last. There has existed a moderate enquiry throughout the week for distilling purposes, and about all received has been taken at former quotations-\$2 90 for virgin and yellow dip, and \$1 45 for hard, per 280 lbs. The receipts and sales for the week foot up 2,555 bbls., as follows:

Virgin. Yel. Dip. Thursday.... 137.......\$2 90.....\$2 90......\$1 45 85...... 2 90..... 2 90. 508...... 2 90...... 2 90. Saturday.... Monday..... 150...... 2 90..... 2 90. Tuesday..... 465...... 2 90..... 2 90. Wednesday...1,210....... 2 90...... 2 90......

Thursday.... 590...... 2 90..... 2 90...... 1 45 Rosin.-We have no change of importance to report in prices of either grade. The receipts have been rather light, and there is only a small stock of the finer grades remaining in receivers hands. For Pale and No. 1 there has been an active demand at full prices, and we note sales for the week of 2,764 bbls. at \$2, \$3, \$3 50, \$4 to \$5 50 \$ bbl., as in quali ty; several other parcels have been sold on terms not transpired. For No. 2 there seems to be little or no demand. and only a few parcels have changed hands at prices ranging from \$1 50 to \$1 75 per bbl. For the Common article the market has ruled inactive during the week, owing prin- 90 to \$1 10. cipally to the fact that sellers are holding at prices above es; Grind Stones, Crank and Fixtures; and many other arti- the views of buyers. The only sales we hear of are as fol- and family \$8. lows: Tuesday, 1,328 bbls. at \$1 15 for small and medium bbls; Wednesday 750 do. at \$1 12, \$1 15 a \$1 20 for large

> TAR .- Is in fair demand for shipment, and would sell readily. No receipts since our last, consequently we have no sales to report. We quote nominally at \$1 70 \$\to\$ bbl. SPIRITS TURPENTINE .- As will be seen by our table below the price advanced on Friday & a 1 cent, but on Monday the advance was lost and sales made at 44 cents. On Wednesday, however, under more favorable advices received, there was more firmness manifest, and the market closed at 441

latter figure. We quote sales during the week as follows: Thursday ... 225 bbls. at 44 cents # gallon. 300 " " 44 Friday..... 11 11 444 Do. 200 Do...... 115 " " 45 44 44 11 11 44 Monday..... 140 44 Tuesday.... Wednesday. 700 " " 441

BEEF CATTLE AND SHEEP .- None of either description has in butchers hands has become exceedingly light. We note | ton of 2,000 lbs.; less quantity \$70. a brisk demand existing, and quote beeves at 5 a 6 cents # 1b. for grass fatted, and sheep at \$1 75 a \$2 25 \$2 head, as in

shade decline since our last review. The receipts have been grades were taken. moderate during the week, and the market is better supplied, though scarcely any remain in first hands. There has been \$1 90 each, as they run-cash and 90 days. No sales of 13 cents. Lard, 12 to 124 cents, selected, and we quote nominally at \$1 95 a \$2.

COFFEE-The market continues to be moderately supplied with nearly all descriptions, and prices remain unchanged. See table for store rates. Corron-Continues to be brought in slowly, and in quantities scarcely sufficient to establish a market. We note some enquiry from buyers, with small sales of new crop during the week at 124 a 124 cents # B. for good middling.

FISH-Mullets have been brought to market slowly, and we note a fair demand existing. About 246 bbls. received

and sold at \$7 a \$7 25 \$9 bbl. FLOUR-Since our last review there has been nothing worthy of report done in this article. The arrivals of State brands continue exceedingly light, and the supply on market has become materially reduced—the larger portion in dealers' hands being in sacks, which are difficult of sale; some small E. Hall transactions, however, have been effected at \$3 a \$3 25 for superfine. The demand for two or three weeks has been meagre, being confined entirely to retailers, who are pur- Clark chasing only in quantities sufficient for their immediate wants. A few small parcels in barrels have sold at \$6 872 a \$7 for superfine, and the market closes quiet at lowest figure. See table for prices of other grades. In Northern brands we have nothing new to note; some parcels in store, and demand limited. Selling in the retail way at \$6 50 a

6 75 % bbl. for superfine. GRAIN-In the CORN market we have nothing new to notice. No receipts since our last review, in the absence of which no sales have taken place. The supply in dealers hands has become considerably reduced, and there is a fair demand at present ;-a few cargoes of good quality would find ready sale at a fair price-say 75 cents @ bushel. OATS-No late arrivals of this article and in consequence the supply in dealers hands has been pretty much worked off. We notice a fair enquiry, and a few parcels would sell at quotations. See table. PEAS The market continues to be pretty well supplied with Cow, and with a meagre demand has ruled exceedingly dull. We quote at 65 a 70 cents B bushel. - RICE-Clean is in fair supply, and in limited enquiry. Selling at 34 cents & B. WHEAT-Several lots now on market, but we hear of no public sales. Quotations in table are merely nominal.

HAY-The stock of all descriptions on market is very heavy, and we note scarcely any demand. No arrivals of Northern; last sale was at 40 cents. About 177 bales Eastern received and sold at 75 cents per 100 lbs., 90 days.

LIME-We note merely a retail demand existing, and the market is heavily supplied. Retailing from store at 90 cents a \$1 \$2 cask, as in quantity. A cargo of 1,300 casks was received on Tuesday by a dealer, which is going into store. Molasses-There is nothing of consequence to report in this article. The market is poorly supplied at present with Cuba, and we note but little demand. Our quotations in

table represent wholesale prices. Potatoes-Ihe market is rather better supplied with rish, and with merely a retail demand has ruled dull. We note small sales from wharf at \$2 50 a \$2 75 \$2 bbl. Sweet have been brought in pretty freely, and sell from boats and carts at 75 a 90 cents # bushel, as in quantity and quality. PROVISIONS .- For N. C. cured Bacon the market has ruled exceedingly quiet for some time past, and scarcely anything has been done except in the retail way. The stock on market is small, though fully sufficient for present purposes, as Blossom. there is no demand from retailers. We refer to our table for prices. The receipts of Western cured during the week have been better than for some time previous, and there is now a moderate supply in first hands. We quote sales from store at 81 a 9 cents for shoulders, and 101 a 11 cents per lb. for sides, as in quantity and quality. LARD. The market for both N. C. and Western make has ruled exceedingly quiet since our last, in the absence of the usual demand for retailing purposes. We quote small sales from store of the former at 134 cents, and the latter at 124 a 13 cents per lb., as in quality; stock sufficient for present purposes .-PORK .- In Northern we have no change as yet to report in prices. The demand for the past week has been meagre, and with moderate receipts there is now a good stock in dealers hands. We refer to our table for store rates, as in quantity and quality.

SALT-Alum continues to be in heavy stock, and we notice merely a retail demand. Sells in the small way at 25 cents B bushel. The market is rather better supplied with Liverpool ground, and the demand appears to have become somewhat checked. About 1,400 sacks received coastwise during the week, of which 450 was taken at 85 cents # sack, cash; the balance remains unsold.

SHINGLES-Continue rather dull of sale, and we notice few coming in. A few small boat loads of Common have been brought in, and sold at \$2 25 to \$2 371 WM. TIMBER-We have nothing new to notice in our remarks

for the past two weeks. There is a fair demand existing from millers, and the receipts continue light. We hear of sales of only 6 a 7 rafts during the week at prices ranging B21.—U. S. M. Steamer Spray, Price, for Smithville, by A. H. VanBokkelen.

FREIGHTS-In our coastwise rates we have no new feature | T. C. Worth; with naval stores. to notice. A large number of vessels have come in since our last, but it has had no effect on rates as yet, several of them being chartered. There is a fair quantity of country produce offering shipment, and the market rules quite firm. We refer to our table for last rates paid, at which a number of vessels have been taken up.

MOBILE, Sept. 21 .- The sales of Cotton are reported 1700 bales; Middling at 11 c. Sales of the three days, since the closing of the last weekly report on Friday evening, are 4,800, and the receipts 1,800 bales. CHARLESTON, S. C., Sept. 21, 1858 .- The Evening News

Corron.-Receipts for the week 6,181 bales and sales o 1,900, at the following figures: 7 bales at 112, 14 at 112, 25 at 112, 26 at 112, 89 at 12, 411 at 124, 80 at 125-16, 778 at 122, 37 at 12 7-16, 415 at 12½. We give the following as the irregular quotations at the close of the market yesterday: Low to Strict Middling, 12; Good Middling, 12½ a 12½; Middling

Fair, 12%.
RICE.—Better grades have advanced a 4c per lb., and scarce. Common grades are heavy. We quote extremes of the week's sales 2½ to 3½—the bulk of fair to good quality at 3½ a 3½, prime at 3½. Receipts of the week 860 tierces, exports in same time 1,726 tierces, remaining on shipboard not cleared, 966 tierces. ROUGH RICE.—The first of the new crop this season—con-

sisting of 1,500 bushels-was received on the 17th instant. -It was sent to the mills for pounding—but the proceeds of the clean have not been returned or disposed of. Grain.—The market for Corn continues in a depressed and declining state, dealers being well supplied with common mixed qualities-prime white for milling is however scarce, and if offered, of ready sale. A store lot of this descrip tion, about 1,000 bushels, having been taken at 90 cents-at the same time that about 6,000 bushels Western mixed in bags, sold for export at 75 cents per bushel of 56 pounds,

bags included. OATS AND PEAS .- No late arrivals-the former is quoted at 45 a 50 and the latter at 95 a \$1 per bushel. Nominal.

WHEAT—Declined, and holders have accepted of \$1 10 a
\$1 12½ for red—but at the close were asking higher rates.— No sales of white, and the article is scarce.

FLOUR.—Superfine and extra \$6 per bbl. SALT .- Wholesale 80c and retail 90 cents per sack. BACON.-Sides 10c, Shoulders scarce, 8 cts. per lb. Range of quotations for stock on hand 61 a 71 cents per lb. Hams bagged and plain 101 a 121 cents per lb.; extra sugar cure 144 a 15 cents per lb GUNNY CLOTH 161 a 171 cents.

Whiskey .- Western 29 a 30 cents per gallon. PETERSBURG, Sept. 21 .- Tobacco .- For some descriptions the market was hardly as active; but all good dry leaf was active at full prices. Cotton .- The market is quiet; holders are demanding 13 cents for prime now, but we hear only of small sales.

Corn.—The market is active at 80 to 83 cents for good Wheat .- The demand for prime white continues very active at \$1 50 to \$1 53; but the medium lots hang heavy at \$1 25 to \$1 35, and red at \$1 15 to \$1 30; common samples Flour.—There is a good demand at \$64 to \$64; extra \$7

Guano .- The market is very active at \$59 to \$60 for Peruvian; \$42 for Elide Island, and \$52 for Kettlewell's and NE WBERN MARKET, Sept. 22 .- Sales of yesterday were very light. Scarcely any thing doing, except in the retail

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Bærhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally,
